

● Visit us at the **InvoiceNow Fair 2026**.

SUNTEC · 29 JUL 2026

DATE	TIME	VENUE
Wed, 29 July 2026	9:00 AM – 6:00 PM	Suntec Convention Hall 401 & 402

INVOICENOW GST · READY TODAY

Send GST e-invoices to IRAS without leaving your books.

Isolve Cloud Accounting raises the invoice, submits it across the InvoiceNow (Peppol) network, receives supplier bills back, and produces the GST reports you file with IRAS — one connected system, in step with IRAS's phased InvoiceNow GST adoption.

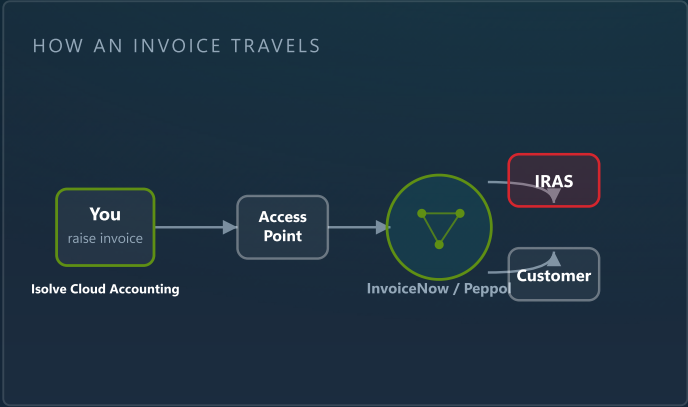

INVOICENOW SUBMISSION

INVOICENOW INBOX

GST F5 & IAF

PEPPOL REGISTRATION

READY FOR **INVOICENOW**

A InvoiceNow GST

THE COMPLIANCE ENGINE

Everything you need to transact and report GST the InvoiceNow way — issue, receive, consolidate and file, all inside Isolve Cloud Accounting.

- **InvoiceNow Submission** — push invoices & credit notes onto the Peppol network straight from the sales screen.
- **InvoiceNow Inbox** — supplier e-invoices arrive digitally, ready to match and post.
- **Consolidate E-Invoice** — roll up B2C / non-network sales into a compliant consolidated submission.
- **GST reporting built in** — InvoiceNow GST reporting, the GST F5 return and the IRAS Audit File (IAF).
- **Self-registration** — register your UEN / Peppol ID on InvoiceNow from System Maintenance.

B Advanced Ordering

BUILT FOR DISTRIBUTORS

A Singapore ordering flow for scheduled and standing deliveries — control what ships, and when, down to the order line.

- **Delivery windows** — capture a delivery start & end date on every sales order line.
- **Order-balance control** — each line tracks its remaining balance so nothing is over-delivered.
- **Guarded fulfilment** — retrieving SO → Invoice caps quantity to the outstanding balance automatically.
- **Line notes** — per-row instructions carry through picking, delivery and billing.
- **Full order-to-cash** — Quotation → Sales Order → Delivery Order → Invoice, with DO picking lists & transport assignment.

Far more than e-invoicing.

InvoiceNow is the doorway — behind it sits a complete accounting, inventory and point-of-sale system that already runs day-to-day operations for wholesale, retail and light-manufacturing businesses.

General Ledger

Chart of accounts, journals, trial balance, P&L, balance sheet, project accounting & bank reconciliation.

Accounts Receivable

Customers, official receipts, statements, aging, overdue letters and credit control.

Accounts Payable

Suppliers, payment vouchers, PV e-payment bank files and creditor aging.

Inventory & Stock

Items & variants, multi-location, FIFO lot & serial tracking, stock take, barcode labels.

Sales & Ordering

Quotations, sales orders, DO, invoices, cash sales, transport, GP & sales analysis.

Purchasing

Requisitions, purchase orders, GRN / stock received, self-billing and purchase returns.

Point of Sale

POS entry, counters, promotions — combos, PWP, bundles, free gifts — and staff clock in/out.

Manufacturing (BOM)

Bill of materials, production planning, assembly and dismantle orders.

Pricing & Promotions

Price levels, pricing matrix, promotion prices, discounts and member redemption.

Members & Service

Loyalty points & redemption, job cards, warranty activation and IMEI / serial management.

100%

Web-based. Nothing to install — open a browser at the office, the warehouse or on the road.

1 system

Accounting + inventory + POS + e-invoicing share one live database. No re-keying, no sync gaps.

SG-first

GST F5, IAF, InvoiceNow & Peppol built for Singapore rules — plus SGD & multi-currency.

Ahead

InvoiceNow is **ready now**, so you adopt on your timeline — not in a last-minute scramble.

GET INVOICENOW-READY

Bring GST e-invoicing into your business with Isolve Cloud Accounting.

From compliance through your full order-to-cash and accounting workflow — come say hello at the **InvoiceNow Fair 2026**, or reach us any time.
